

Discover the Endgame lecture follows an important principle of evangelism found in the following words: “The subject was of special interest, and the people listened with the most earnest attention. It seemed to be *just what they wanted to hear*.”—Ellen White, *Review and Herald*, September 6, 1877, emphasis supplied.

Leading off with issues that are of current interest to all those paying attention to the news, this lecture focuses on what people want to hear. The subject that “was of special interest” back in 1877 was Uriah Smith’s presentation on the Eastern Question (Daniel 11:45). **Discover the Endgame** reintroduces the topic of the Eastern Question in a one-hour lecture to the 21st century listener.
